REPORTED MEMBERSHIP AND FINANCIAL DATA FROM JOURNALSPH-56
WP/sk

Since 1940 the membership of St. James the Less has steadily declined so that between 1940 and 1963 the membership decreased from 566 baptized members to 170 and the communicant strength decreased from 456 to 151. During the three-year period 1961 through 1963 the baptized membership decreased from 307 to 170; communicant strength decreased 301 to 151. During this three-year period a total of nine persons were presented for baptism and 15 were presented for confirmation with corresponding ratios to the communicant strength of 1.3% and 2.2% respectively. These percentages are below the diocesan averages and when coupled with transfers in and transfers out, indicate the declining membership patterns.

During this same three-year period a total of \$88,044.00 was expended for all purposes and of this amount some \$6,243.00 was expended for work outside the parish, making up 7.1% of the total budget. The amount of money spent for work outside the parish should be carefully considered because it indicates a considerably smaller percentage than should be expected.
